STEPS FOR BUDGET REQUEST

1. On the next page, copy and paste a table for each program your club is hosting or attending. An itemization table for each of the items needed is under the program table. Please add additional rows to the item table for events requiring multiple items. Note** gas is calculated at 55 cents per mile.
2. Explain the nature of the program/activity? How will students and/or the campus as a whole benefit by the funding of this proposal? How will the program/activity be advertised to all students? Who is the targeted audience? Please be as specific as possible. 3. Provide an invoice whenever possible in order to justify costs. For example, if your club needs a bus, provide an invoice from the bus company to support the request.

Note: Please feel free to reach out to me if there are any issues or concerns on our budget. I would be happy to meet up and clarify prices and quantities more in person. You can reach me by phone or by email - my contact info is shown above. Thanks!

- Bret Landis

Food Expense - number was calculated and approximated based on the last trip ASME Club took. Breakfast is provided at the hotel and we ate at the cheapest fast food restaurants in the area for lunch and dinner. For example, we ate at In n Out when we went to San Diego which is approximately a \$10 meal per person (Unfortunately we do not have receipts from the last trip because we paid out of pocket for everything). I approximated the overall price for 4 people for 5 days to be around \$600. If you do not agree with this number please contact me to discuss this in person so we can come to an agreement for food expense. Thank you!
